Changing destinies

Dear friends,

This year we are celebrating 15 years of yourchance – and the truth is simple: thanks to you, vulnerable beginnings turn into stories of independence. In **the Start Right** integration system, young people leaving orphanages or foster care are not left on their own: they have a guide on their path to adulthood, a clear plan, and support in finding work and housing. **The Financial Literacy for Schools** project equips teachers with the tools to help students understand money before they make costly mistakes. And **Welcome to Czechia** helps Ukrainian women and young people fleeing the war quickly find their footing, integrate into society, find employment or start a business, and feel at home here.

Together, we are creating an environment in which everyone has a real chance to succeed.

Thank you for being more than "just" donors. You are co-authors of change – together, we are changing destinies.

I look forward to working with you.

Jana Merunková
